

# villa & hut

# ecolene™ 2008

best of all – ecolene comes with a 5 year warranty, is exclusive to villa & hut and is 100% eco friendly

## this month villa & hut launches its latest & greatest furniture range

ecolene is an exclusive **recycled material** (polyethylene synthetic wicker) which has been developed to meet all the specifications required for australian conditions – both for indoor and outdoor use.

the latest extrusion technology has been used to design and create a synthetic woven fibre that is extremely durable and more natural looking than ever before.

ecolene is the only synthetic wicker which can withstand uv radiation (300-340nm wave length), 40° plus heat, below zero cold, direct sunlight, oxidation, rain and snow, high moisture, and mould and mildew. ecolene contains no heavy metals or toxins, is **recyclable**, and most importantly is pure nature.

## indoor, outdoor, sun, rain, poolside
